"To the Technical Adaptation Committee."

Faianças Ideal Vale de Ourém Lda., a portuguese company in the ceramic business, submits to TAC's consideration, the request for additional exemptions under *Article 5 of Directive 2002/95/EC*. For this purpose, we are sending you in the attachments to this e-mail, documentation to sustain our point of view regarding our request for further exemptions. We completed, according to our means and knowledge, the *Checklist for requests for additional exemptions*, and hope to enlighten TAC about this very important issue.  
We are available to clarify any further doubts that could emerge.

Best Regards,

Carlos Mendes
